

Pediatric Care Online (PCO)

1. Download Pediatric Care Online (PCO) from the App Store or Google Play Store. Links to the app can be found by navigating to the CIAP website and selecting 'Mobile Apps' from the left navigation menu.
2. You will need to register for an account in order to have mobile access. To register from within a NSW Health facility, access the PCO site from CIAP and use the registration link to register.
3. Open the PCO app on your device and enter your PCO username and password to log in. Once logged in, you will see the PCO homepage where you can access all of the different resources available. You can use the top right search function to search across all resources.

Renewal

To maintain access to PCO on your mobile device you will need to log in to PCO from a NSW Health Network computer via CIAP at least once every six months.

The Pediatric Care Online app enables you to download key resources including the Point-of-Care Quick Reference, Red Book, Interactive Periodicity Schedule, and Pediatric Drug Lookup for fast, offline access. Content is up-dated regularly, so you always have the latest evidence-based recommendations and tools.

You can find it on CIAP
