# COVID-19 Critical Intelligence Unit

## **Daily evidence digest**

17 July 2020

The daily evidence digest collates recently released reports and evidence – provision of these links does not imply endorsement nor recommendation.

### Diagnostic tests, impacts on healthcare workers, resuming elective surgery

#### Peer reviewed journals featured:

- Systematic reviews have been published on:
  - o Diagnostic tests for COVID-19 here and here
  - o Neurological manifestations in COVID-19 infection here
- A randomised clinical trial on the efficacy and safety of interferon β-1a in treatment of severe COVID-19 here
- A retrospective analysis on admission rates for management of acute coronary syndromes during COVID-19 in England here
- A prospective genomic surveillance study using SARS-CoV-2 sequencing to investigate cases of healthcare associated COVID-19 <a href="here">here</a>
- From the BMJ:
  - o Commentary on palliative care for patients with severe COVID-19 here
  - o An article on cancer services countering the impact COVID-19 here
  - An article on sewage monitoring in the UK as a defence against COVID-19 <u>here</u>
  - An editorial on structural inequities in the global supply of personal protective equipment here
- A perspective on improving clinical trial enrolment in COVID-19 and beyond <u>here</u>
- Commentary on supporting the front-line employees in New York during COVID-19 here
- A perspective on COVID-19 and disparities in nutrition and obesity in the US here
- A cross sectional analysis on utilisation of telehealth in a California cancer centre here
- Monitoring and management of home-quarantined patients with COVID-19 using a WeChatbased telemedicine system <a href="here">here</a>
- Factors associated with death in critically ill patients with COVID-2019 in the US <u>here</u> and in Italy <u>here</u>
- Commentary on survivorship after an ICU stay for COVID-19 in US <u>here</u>
- A case series of clinical neurophysiology and cerebrospinal liquor analysis to detect Guillain Barré syndrome and polyneuritis cranialis in COVID-19 patients <u>here</u>
- An editorial on COVID-19 and ageism here

#### **Letters and Correspondence discussed:**

- Responses to 'Challenges and issues of SARS-CoV-2 pool testing' <u>here</u> and <u>here</u>; and the authors' reply <u>here</u>
- The cost of cancelling surgery due to COVID-19 here
- Improving staff confidence and morale at Oxford University Hospitals through training in the use of COVID-19 personal protective equipment <a href="here">here</a>

#### Pre-peer review articles

- A rapid scoping review of stress, burnout and depression in women in health care during COVID-19 pandemic here
- A cross-sectional descriptive study in health-care workers on pericarditis and myocarditis long after SARS-CoV-2 infection <a href="here">here</a>
- The effect of international travel restrictions on internal spread of COVID-19 here
- A systematic review on estimating the sero-prevalence of SARS-CoV-2 infections <u>here</u>
- Mechanistic transmission modelling of COVID-19 on the Diamond Princess cruise ship here
- Female leadership and public health outcomes during the COVID-19 pandemic here

#### Resources

• The World Health Organisation released a practical guide to rehabilitation self-management after COVID-19- related illness here

#### **Critical Intelligence Unit updates**

A suite of evidence checks on resuming elective surgery are being published, the first of these include:

- Resuming elective surgery <u>here</u>
- Low value surgery <u>here</u>
- Productivity and efficiency approaches <u>here</u>
- Post-surgery innovations: enhanced recovery after surgery, early mobilisation and discharge here

## Have your say on the future of the digest

Do you value the daily digest? Should we continue to produce it daily? Would you prefer a weekly summary and shorter daily alerts? Should we cluster topics into themes? Can you suggest any improvements?

Please complete a quick survey to give your feedback. It will take about three minutes to complete. Survey closes 21 July 2020. Click here to complete the survey.
