Recurrence of COVID-19, venous thromboembolism, fatality rates across countries, WHO insights

Peer reviewed journals

- Systematic reviews and meta-analyses on:
 - The incidence and outcome of out-of-hospital cardiac arrests during COVID-19 [here](#) and their effects [here](#)
 - Factors associated with recurrence of COVID-19 [here](#)
- Retrospective cohort studies on:
 - Seroprevalence and transmission risk factors among close contacts of COVID-19 cases in Singapore [here](#)
 - Frequency of venous thromboembolism in 6513 patients with COVID-19 [here](#)
- A modelling study on the mortality impact of COVID-19 in the UK [here](#)
- Observational studies on:
 - Neighbourhood income and physical distancing during COVID-19 in the US [here](#)
 - Explaining variation in COVID-19 case fatality rates across countries [here](#)
- A retrospective, repeated cross-sectional analysis of sero-monitoring of COVID-19 in New York [here](#)
- Commentary on the rapid implementation of an electronic repository for medical orders for life-sustaining treatment (eMOLST) at a New York hospital during COVID-19 [here](#)

Letters and correspondence discussed:

- Testing macrolide antibiotics for management of co-infections in patients with COVID-19 [here](#)
- The impact of COVID-19 on doctor-patient interactions [here](#)
- Favourable outcomes among neonates not separated from their symptomatic COVID-19-infected mothers [here](#)

News, blogs and podcasts

- Blog discussing the second lockdown in the UK [here](#)
- Update to the Australian Department of Health COVID-19 response for GPs [here](#)
- Talk evidence COVID-19 update podcast on risk, remdesivir, and relevant research [here](#)

Guidance and reports

- ANZICS released an update to its COVID-19 guidelines for critical care [here](#)
- The WHO European Observatory on Health Systems and Policies published an edition of *Eurohealth*, featuring articles on:
 - COVID-19 and long-term care [here](#)
 - Remote consultations during COVID-19 [here](#)
 - Restarting more routine hospital activities during COVID-19 – approaches from six countries [here](#)
 - Balancing the delivery of essential health services during COVID-19 [here](#)
 - Supporting health workers during COVID-19 [here](#)
 - Expanding health workforce surge capacity during COVID-19 [here](#)
 - Comparing COVID-19 mortality across countries [here](#)
 - Effective COVID-19 contact tracing and the role of apps [here](#)
 - Translating evidence into policy during COVID-19 [here](#)
 - Successful find-test-trace-isolate-support systems [here](#)
 - Responding to the COVID-19 economic and health financing crisis [here](#)
 - COVID-19 and health systems resilience [here](#)
 - Adjusting hospital inpatient payment systems for COVID-19 [here](#)
 - Policy issues in lockdown transitions [here](#)
 - The COVID-19 Health System Response Monitor (HSPM) [here](#)
 - Centralisation within and between governments [here](#)
 - National, European, and global solidarity for COVID-19, public health, and vaccines [here](#)
