# Surgical practice, effects of intravenous immunoglobulin, body mass index (BMI) and COVID-19, vaccine implementation

### Peer reviewed journals featured:

- A living rapid systematic review on the impact of COVID-19 on surgical practice here
- A systematic review and meta-analysis on SARS-CoV-2, SARS-CoV, and MERS-CoV viral load dynamics, duration of viral shedding, and infectiousness <u>here</u>
- A randomised controlled trial on intravenous immunoglobulin (IVIg) for severe COVID-19 here
- A multi-centre comparison of seven serology assays for diagnosing COVID-19 here
- An observational study on the association between body mass index and COVID-19 outcomes here
- Several articles on the implementation of a COVID-19 vaccine
  - o a modelling study here
  - $\circ$  commentary on ethical and scientific considerations  $\underline{here}$
  - $\circ$  an editorial on roll out <u>here</u>
- Editorials on:
  - COVID-19 and cardiovascular disease in Australia and New Zealand <u>here</u>
  - Safe provision of surgical treatments during COVID-19 here
- Commentary on:
  - Olfactory dysfunction in COVID-19 <u>here</u>
  - Addressing COVID-19 among UK ethnic minorities <u>here</u>
  - Digital health system tools for COVID-19 response <u>here</u>
  - Older adults and the mental health effects of COVID-19 here
  - o The effectiveness and future of remdesivir here
  - $\circ$  The rise and fall of the aerosol box during COVID-19  $\underline{here}$

#### Letters and correspondence discussed:

- Cycle threshold (Ct) values and infectivity of SARS-CoV-2 on surfaces here
- Attitudes and predictions on the future COVID-19 transmission dynamics from Australian and New Zealand infectious diseases and microbiology specialists <u>here</u>

## Guidance and reports

- A series of papers featured in the Bulletin of the World Health Organization:
  - Emergency care in the pandemic here
  - Impact of COVID-19 response on global surgical volumes <u>here</u>
  - COVID-19 and sustainable development goals <u>here</u>
  - Digital health and COVID-19 here
- The World Health Organization published guidance on:
  - Priority medical devices for the COVID-19 response and associated technical specifications <u>here</u>
  - o Continuity of essential health services using a facility assessment tool here
  - Diagnostics, therapeutics, vaccine readiness, and other health products for COVID-19 <u>here</u>
  - Weekly epidemiological update here
- The Cochrane Library published updates to COVID-19 Special Collections <u>here</u> and systematic reviews on:
  - Physical interventions to interrupt or reduce the spread of respiratory viruses <u>here</u> and associated editorial <u>here</u>
  - Routine laboratory testing to determine if a patient has COVID-19 <u>here</u>
