Reopening schools, telehealth implementation, health consequences of COVID-19, intended vaccine uptake

Peer reviewed journals featured:

- A rapid systematic review of guidelines for reopening schools during COVID-19 [here](#)
- A rapid review of telehealth implementation during COVID-19 [here](#)
- A randomised controlled trial on repurposed antiviral drugs for COVID-19 [here](#)
- Observational studies on:
 - The reduction in hospital admissions for COPD exacerbations during COVID-19 [here](#)
 - Paediatric ED utilisation in the early phase of the COVID-19 pandemic [here](#)
 - Decreased influenza activity during the COVID-19 pandemic in the United States, Australia, Chile, and South Africa [here](#)
 - Association of health literacy with preventive behaviours during COVID-19 [here](#)
 - Health consequences of COVID-19, including: 12-week respiratory outcomes in COVID-19-related hospitalisations [here](#), persistent symptoms in non-hospitalised patients [here](#) and patient outcomes after COVID-19 hospitalisation [here](#)
- Commentaries on:
 - A rapid transition care model to prevent re-hospitalisations of COVID-19 patients [here](#)
 - A choice between two futures for pandemic recovery [here](#)
 - COVID-19 vaccine trial ethics [here](#)
- An editorial on patients with cancer during COVID-19 [here](#)

Letters and correspondence discussed:

- Overdose-related cardiac arrest observed by emergency medical services during in the US [here](#)
- Respirators evaluated by fit testing [here](#)

Pre-peer review articles featured:

- A rapid systematic review and meta-analysis of large nationally representative samples on international estimates of intended uptake and refusal of COVID-19 vaccines [here](#)

Guidance and reports

- The National COVID-19 Clinical Evidence Taskforce updated recommendations [here](#)
- The World Health Organization published:
 - Interim guidance on health workforce policy and management in the COVID-19 pandemic response [here](#)
 - Insights from the WHO technical advisory group on the behavioural considerations for acceptance and uptake of COVID-19 vaccines [here](#)
 - A generic protocol of a prospective cohort study investigating maternal, pregnancy and neonatal outcomes for women and neonates infected with SARS-CoV-2 [here](#)
- The Cochrane Library updated its remote care special collection to include evidence on telephone interventions for providing education and support to informal caregivers of ill adults [here](#)

News and blogs

- What scientists want to know now that the UK has approved a COVID-19 vaccine [here](#)
