## Psychological illness after COVID-19, the RECOVERY platform's dexamethasone trial, effectiveness of Pfizer vaccine

### Peer reviewed journals featured:

- A meta-analysis on the incidence of psychological illness after COVID-19 outbreaks [here](#)
- The RECOVERY platform's controlled, open-label trial on dexamethasone [here](#) and associated editorials [here](#) and [here](#)
- An overview and taxonomy on health apps for combating COVID-19 [here](#)
- A prospective study on the prevalence of asymptomatic SARS-CoV-2 infection in elective surgical patients in Australia [here](#)
- Observational study on the effectiveness of the BNT162b2 (Pfizer) vaccine in Israel [here](#)
- Case reports of lymphadenopathy following COVID-19 vaccination in oncologic patients [here](#) and in an asymptomatic female [here](#)
- Editorials on:
  - The case for an international pandemic treaty [here](#)
  - Sharing vaccines globally [here](#)
- Commentary on:
  - Enhancing the WHO proposed framework for distributing COVID-19 vaccines [here](#)
  - Prioritising surgical cases deferred by the COVID-19 pandemic [here](#)
  - Public health decisions during COVID-19, and the need for science and ethics [here](#)
  - Concerns that COVID-19 drug practices risk antimicrobial resistance evolution [here](#)
  - Bell's palsy and SARS-CoV-2 vaccines [here](#)
  - The Lancet Commission for Vaccine Refusal, Acceptance, and Demand in the USA [here](#)
  - The last-mile logistics of COVID-19 vaccination in the US [here](#)
  - Targeting the viral life cycle [here](#)

### Letters and correspondence discussed:

- The delivery of COVID-19 health messages by Aboriginal leaders [here](#)
- COVID-19 information in news media [here](#)
- The risk of fomite-mediated SARS-CoV-2 transmission in daycare, schools, nursing homes, and offices [here](#)

## Pre-peer review articles featured:

- A potential new variant of concern, B.1.526, identified in New York [here](#)

## Guidance and reports

- The World Health Organization published guidance on preparedness, prevention and control of COVID-19 in prisons and other places of detention [here](#)
- The National COVID-19 Clinical Evidence Taskforce released updated recommendations and clinical flowcharts [here](#)
- The Cochrane Library updated its systematic review on signs and symptoms to determine if a patient presenting in primary care or hospital outpatient settings has COVID-19 [here](#)
- The Canadian Society of Breast Imaging and Canadian Association of Radiologists recommendations for the management of axillary adenopathy in patients with recent COVID-19 vaccination [here](#)

## News and blogs

- Is England's exit plan from lockdown a road to nowhere? [here](#)
- The inequity of isolation [here](#)
- A discussion about the real-world effectiveness of COVID-19 vaccination [here](#)
