The daily evidence digest collates recently released reports and evidence – provision of these links does not imply endorsement nor recommendation.

### Mortality and the UK / Kent variant, a ‘Green Pass’ post-vaccination proposal in Israel, timeline of immunological insights about COVID-19

#### Peer reviewed journals featured:

- A randomised controlled trial on bromhexine in hospitalised COVID-19 patients [here](#)
- Observational studies on:
  - Mortality in community-tested cases of B.1.1.7 (UK / Kent) variant in the UK [here](#)
  - Electroencephalographic findings for COVID-19 patients [here](#)
  - Physiological parameters of mental health associated with post-traumatic stress symptoms among physicians treating COVID-19 patients [here](#)
  - The effects of cancer screening restart strategies after COVID-19 disruption [here](#)
- Commentary on:
  - Immunity to SARS-CoV-2 variants of concern [here](#)
  - Incentivising vaccination uptake with a “Green Pass” in Israel [here](#)
  - COVID-19 vaccine guidance for cancer patients in oncology clinical trials [here](#)
  - A timeline of immunological insights in the first 12 months of COVID-19 [here](#)

#### Letters and correspondence discussed:

- COVID-19 and post-acute COVID-19 syndrome for children returning to school [here](#)
- Vaccine efficacy against COVID-19 variants [here](#)
- Immunogenicity of single dose of Pfizer and Moderna vaccines in solid organ transplant recipients [here](#)

#### Pre-peer review article featured:

- Novel SARS-CoV-2 lineage with the spike substitutions L249S and E484K in Columbia [here](#)

#### News and blogs

- COVID-19 vaccination prioritisation for people with asthma [here](#)
- Dismantling the anti-vaxx industry [here](#)
