### **Durability of neutralising antibodies, malnutrition risk with CPAP, has COVID-19 peaked?**

#### **Peer reviewed journals featured:**

- Systematic reviews on:
  - The impact of COVID-19 on the utilisation of healthcare services internationally [here](#)
  - Epidemiology and outcomes of COVID-19 in HIV-infected individuals [here](#)
- Observational studies on:
  - Seroprevalence and durability of neutralising antibodies against SARS-CoV-2 [here](#) and associated commentary [here](#)
  - Acceptability of no-test early medical abortion via telemedicine during COVID-19 [here](#)
  - Clinical utility of early repeat RT-PCR testing for SARS-CoV-2 [here](#)
  - An association between COVID-19 cases and regional air pollution [here](#)
  - Proteomic blood profiling in mild, severe, and critical COVID-19 patients [here](#)
  - Epidemiological modelling of asymptomatic SARS-CoV-2 transmission [here](#)
  - Simulation modelling on controlled testing and isolation to suppress COVID-19 [here](#)
- Editorials on:
  - The neurological effects of post-acute COVID-19 syndrome [here](#)
  - Artificial Intelligence, COVID-19 and future outbreaks [here](#)
- A commentary on moral injury and its effect and treatment [here](#)

#### **Letters and correspondence discussed:**

- Malnutrition risk in COVID-19 patients receiving CPAP [here](#)

#### **Pre-peer review articles featured:**

- Humoral and T cell responses to a single dose of BNT162b2 (Pfizer) vaccine [here](#)
- Myocarditis in naturally infected pets with the British variant of COVID-19 [here](#)

## Guidance and reports

- The World Health Organization published a study protocol to measure COVID-19 vaccine effectiveness among health workers [here](#)
- The National COVID-19 Clinical Evidence Taskforce updated its recommendations and clinical flowcharts [here](#)
- The American College of Rheumatology published guidance on COVID-19 vaccination for patients with rheumatic musculoskeletal disease [here](#)

## News and blogs

- Has COVID-19 peaked? Maybe, but it's too soon to be sure [here](#)
- Five reasons why COVID-19 herd immunity is probably impossible [here](#)
- 'Do not resuscitate' decisions ignored equality and human rights law in England [here](#)
- The uphill battle restoring confidence after the Oxford/AstraZeneca vaccine pause [here](#)
- Are people letting down their guard too soon after the COVID-19 vaccination? [here](#)
- In Australia, COVID-19 vaccination appointments available at GP-led respiratory clinics from 19 March [here](#)
