

## Daily evidence digest

18 June 2021

The daily evidence digest collates recently released reports and evidence – provision of these links does not imply endorsement nor recommendation.

### Tofacitinib for COVID-19 pneumonia, control measures during vaccination rollout, COVID-19 systemic pathogenesis

#### Peer reviewed journals featured:

- A randomised controlled trial on tofacitinib in hospitalised patients with COVID-19 pneumonia [here](#)
- A modelling study on control measures during the SARS-CoV-2 vaccination rollout [here](#)
- Observational studies on:
  - Mortality of solid and haematological cancer patients with COVID-19 symptoms [here](#)
  - COVID-19 systemic pathogenesis [here](#)
  - Treatment of multisystem inflammatory syndrome in children [here](#)

#### Pre-peer review articles featured:

- Estimating background rates of hospital transfers and deaths in aged care facilities, following COVID-19 vaccination, in Australia [here](#)

#### News and blogs

- Delaying the end of lockdown will allow more people to be vaccinated in the UK [here](#)
- Extended emergency and Olympic concerns overshadow Japan's accelerated vaccine rollout [here](#)
- 8 in 10 doctors have experienced moral distress during the pandemic [here](#)
- How COVID-19 is changing global science collaborations [here](#)
