Phase 3 trial of CoronaVac, guidance for healthcare leaders, sensitivity of Delta variant to antibody neutralisation, COVID-19 endgame scenarios

Peer reviewed journals featured:

- Phase 3 trial for CoronaVac - an inactivated whole-virion vaccine produced by Sinovac [here](#)
- Guidance for healthcare leaders during the recovery stage of COVID-19 [here](#)
- Observational studies on:
 - Reduced sensitivity of Delta variant to antibody neutralisation [here](#)
 - Scientists' opinions on immunity certificates, fairness and inequality [here](#)
 - Compliance with COVID-19 guidelines following vaccination in the UK [here](#)
 - Serologic status and toxic effects of Pfizer vaccine in patients treated for cancer [here](#)
 - The effect of methotrexate and targeted immunosuppression on humoral and cellular immune responses to Pfizer vaccine [here](#)
 - Neutralisation of Beta and Delta variants with sera of COVID-19 recovered cases and vaccinees of Bharat Biotech COVID-19 vaccine (Covaxin) [here](#)
- An editorial on mandatory COVID-19 vaccination for care home workers in England [here](#)
- Commentary on:
 - COVID-19 origins [here](#) and associated editorial [here](#)
 - Networks of SARS-CoV-2 transmission [here](#)
 - Potential COVID-19 endgame scenarios [here](#)
 - The future trajectory of COVID-19 [here](#)

Letters and correspondence discussed:

- Asymptomatic and symptomatic COVID-19 infections in healthcare personnel [here](#)

Guidance and reports

- The World Health Organization published an assessment tool for COVID-19 case management capacities [here](#)
- The Australian COVID-19 Surveillance Team published its latest epidemiology report [here](#)
- The TGA released its COVID-19 weekly vaccine safety report [here](#)
- The BMJ updated its best practice guide on COVID-19 [here](#)

News and blogs

- Will COVID-19 become a disease of the young? [here](#)
- The US president renews vaccines push as cases and deaths rise among unvaccinated people [here](#)
- Rapid testing cuts cases in pilot but questions remain over lateral flow tests in the UK [here](#)
- The quest to find genes that drive severe COVID-19 [here](#)
- A correlate of protection for SARS-CoV-2 vaccines [here](#)
- COVID-19 and schools [here](#)
