COVID-19 Critical Intelligence Unit

# **Daily evidence digest**

21 July 2021

The daily evidence digest collates recently released reports and evidence – provision of these links does not imply endorsement nor recommendation.

# COVID-19 vaccines, tocilizumab and systemic corticosteroids, frequency and phenotype of headache in COVID-19 patients

#### Peer reviewed journals featured:

- Systematic reviews on:
  - o Efficacy and effectiveness of COVID-19 vaccines against SARS-CoV-2 infection here
  - o Tocilizumab and systemic corticosteroids in managing COVID-19 patients here
- A randomised trial of umifenovir in patients with moderate to severe COVID-19 here
- Observational studies on:
  - o Ethnic differences in SARS-CoV-2 vaccine hesitancy in UK healthcare workers here
  - Frequency and phenotype of headache in COVID-19 patients here
  - SARS-CoV-2 vaccine effectiveness in a high-risk national population in a real-world setting <u>here</u>
- A commentary on the need for life-course study of children born to mothers with prior COVID-19 infection <u>here</u>

#### Letters and correspondence discussed:

- Sickle cell disorders and severe COVID-19 outcomes here
- Neonatal outcomes following maternal infection with SARS-CoV-2 here
- Screening for SARS-CoV-2 antigen before a live indoor concert here and associated editorial here
- Antidepressants and rimonabant as a potential COVID-19 treatment <u>here</u>

#### Pre-peer review articles featured:

- · Viral load of SARS-CoV-2 in respiratory aerosols emitted by breathing, talking and singing here
- The incidence and in-hospital mortality of COVID-19 patients post-vaccination in eastern India here
- The role of vaccination in Australia's COVID-19 public health response here

### **Guidance and reports**

- The World Health Organization published:
  - Recommendations from the European Technical Advisory Group on mental health impacts of COVID-19 <u>here</u>
  - Guidance for clinical case management of thrombosis with thrombocytopenia syndrome (TTS) following vaccination to prevent COVID-19 <u>here</u>

## News and blogs

- Fully vaccinated NHS staff may not need to self-isolate in England here
- Experts condemn UK "Freedom day" as dangerous and unethical here
- Myanmar's latest military strategy to undermine resistance to COVID-19 vaccine here
