The daily evidence digest collates recently released reports and evidence – provision of these links does not imply endorsement nor recommendation.

### Dapagliflozin in patients with cardiometabolic risk factors, effectiveness of COVID-19 vaccines against the Delta variant

#### Peer reviewed journals featured:

- A randomised controlled trial of dapagliflozin in patients with cardiometabolic risk factors (DARE-19) hospitalised with COVID-19 [here](#) and associated commentary [here](#)
- A narrative review on the implementation of a paediatric Head Injury Discharge At Triage (HIDAT) tool during the COVID-19 pandemic [here](#)
- Observational studies on:
  - Effectiveness of COVID-19 vaccines against the Delta variant [here](#)
  - Association between COVID-19 exposure and self-reported compliance among higher education employees in the US [here](#)
- Commentary on:
  - Tolerance of COVID-19 vaccination in patients with systemic lupus erythematosus [here](#)
  - The landscape of COVID-19 trials in Australia [here](#)
  - SARS-CoV-2 human challenge studies [here](#)
- A case report of cerebral venous sinus thrombosis after resolution of COVID-19 in a non-hospitalised patient [here](#)

#### Letters and correspondence discussed:

- Household transmission of SARS-CoV-2 from children and adolescents [here](#)

#### News and blogs

- In India, two-thirds of people carry antibodies, the death toll may be 10 times the official figure [here](#)
- NEJM audio interview on the impact of COVID-19 on trainees and junior faculty [here](#)
