COVID-19 Critical Intelligence Unit

Daily evidence digest

17 August 2021

The daily evidence digest collates recently released reports and evidence – provision of these links does not imply endorsement nor recommendation.

Novel antigen rapid diagnostics for SARS-CoV-2, cannabidiol therapy for healthcare workers, remote patient monitoring

Peer reviewed journals featured:

- A systematic review on the accuracy of novel antigen rapid diagnostics for SARS-CoV-2 here
- A randomised clinical trial of cannabidiol therapy for the treatment of emotional exhaustion and burnout among frontline healthcare workers in COVID-19 <u>here</u>
- An observational study on the implementation of a remote patient monitoring program for ambulatory management of COVID-19 patients <u>here</u>
- A modelling study on optimal national prioritisation policies for hospital care in COVID-19 here

Letters and correspondence discussed:

Change in saliva RT-PCR sensitivity over the course of SARS-CoV-2 infection here

Pre-peer review articles featured:

- Rapid antigen testing as a public health response to surges in risk in healthcare settings here
- Changing dynamics of COVID-19 in the US with the emergence of the Delta variant <u>here</u>
- Neutralisation levels required for protective immunity against SARS-CoV-2 variants <u>here</u>
- Mathematical modelling of vaccination rollout and lifting of nonpharmaceutical interventions with variants of concern in Toronto <u>here</u>
- The role of incentives in deciding to receive the available COVID-19 vaccine here
- Diagnostic accuracy of rapid point-of-care tests for diagnosis of current SARS-CoV-2 infections in children <u>here</u>
- The reproductive number of the Delta variant here

Guidance and reports

- The World Health Organization published updates of the:
 - Weekly epidemiological report on COVID-19 here
 - o COVID-19 vaccine tracker here

News and blogs

- Variants of SARS-CoV-2 here
- China pressured the World Health Organization team to dismiss lab leak theory <u>here</u>
- Cases rise in South Korea, China, and the Philippines as protests erupt in Thailand here
- Learning lessons from COVID-19 to reduce global health inequity <u>here</u>
- Has COVID-19 taught us anything about pandemic preparedness? <u>here</u>
