Thrombocytopenia and thromboembolism after vaccination, COVID-19 risk by occupation in healthcare workers

Peer reviewed journals featured:

- A systematic review and case report on COVID-19-associated mucormycosis [here](#)
- Randomised clinical trials of:
 - Early high antibody-titre convalescent plasma for hospitalised COVID-19 patients [here](#)
 - Favipiravir in moderate COVID-19 pneumonia patients without oxygen therapy [here](#)
- A modelling study on COVID-19 prevention strategies to permit safe opening of US colleges [here](#)
- A survey on the impact of face masks on interpersonal trust in times of COVID-19 [here](#)
- Observational studies on:
 - The risk of thrombocytopenia and thromboembolism after COVID-19 vaccination and SARS-CoV-2 positive testing [here](#) and associated editorial [here](#)
 - Risks of COVID-19 by occupation in NHS workers in England [here](#)
 - The durability of antibody response to vaccination and neutralisation of Alpha, Beta and Gamma variants [here](#)
 - Anti-SARS-CoV-2 antibodies in cancer patients recovered from COVID-19 [here](#)
- Commentary on the race to understand post-acute COVID-19 syndrome conditions [here](#)

Pre-peer review articles featured:

- Association between daily COVID-19 reproduction rates and current health expenditure across countries [here](#)
