## COVID-19 Critical Intelligence Unit

### **Daily evidence digest**

1 October 2021

The daily evidence digest collates recently released reports and evidence – provision of these links does not imply endorsement nor recommendation.

# Post-acute COVID-19 syndrome, pharmacological interventions, extracorporeal membrane oxygenation (ECMO) for COVID-19

#### Peer reviewed journals featured:

- · Systematic reviews on:
  - o Post-acute COVID-19 syndrome here
  - o Safety and efficacy of convalescent plasma in COVID-19 here
  - o Pharmacological interventions to prevent COVID-19 here
- A phase 3 trial of Vaxzevria (AstraZeneca) vaccine here
- A randomised controlled trial of REGEN-COV antibody combination in outpatients here
- Narrative reviews on:
  - o Skin damage prevention in the prone ventilated critically ill patient here
  - o The use of viral genomics to investigate outbreaks in long-term care facilities here
  - o A global database of international border closures here
- Observational studies on:
  - Physical, cognitive, and mental health outcomes in one year survivors of COVID-19associated acute respiratory distress syndrome <a href="here">here</a>
  - Symptoms and health outcomes in one-year survivors of COVID-19 in Wuhan here
  - COVID-19 hospital admissions and deaths after Comirnaty (Pfizer) and Vaxzevria (AstraZeneca) vaccinations in Scotland <a href="here">here</a> and associated commentary <a href="here">here</a>
  - Extracorporeal membrane oxygenation for COVID-19 <u>here</u>
  - o Retinal vessels modifications in acute and post-COVID-19 here
  - o Postmortem evaluation of 735 consecutive SARS-CoV-2-associated deaths here
  - Air seal performance of personalised face masks compared with market-available surgical and FFP2 masks <u>here</u>

#### Letters and correspondence discussed:

- Resurgence of SARS-CoV-2 infection in a highly vaccinated health system workforce here
- Clinical and biological features of cerebral venous sinus thrombosis following Vaxzevria (AstraZeneca) vaccination <a href="here">here</a>
- Inadvertent injection of COVID-19 vaccine into deltoid muscle vasculature may result in vaccine distribution to distant tissues and consequent adverse reactions <u>here</u>

#### Pre-peer review articles featured:

- Viral dynamics and circulating viral variants during the Spikevax (Moderna) phase 3 COVE trial <a href="here">here</a>
- Predicting hospital-onset COVID-19 infections using dynamic networks of patient contacts <u>here</u>
- Monoclonal antibodies against SARS-CoV-2 here
- SARS-CoV-2 spread in hospitals <u>here</u>
- The impact of SARS-CoV-2 vaccination on Alpha and Delta variant transmission here

#### **Guidance and reports**

- The World Health Organization published:
  - Briefs on COVID-19 in children and adolescents <u>here</u> and on neurology and COVID-19 here
  - Its weekly epidemiological report <u>here</u>
- The National COVID-19 Clinical Evidence Taskforce released updated recommendations and clinical flowcharts <u>here</u>

#### News and blogs

- NEJM audio interview on COVID-19 and the media here
- COVID-19 vaccine nasal spray <u>here</u>

<u>Click here</u> to subscribe to the daily evidence digest.

#### **Living Evidence Tables**

Living Evidence tables are up-to-date summaries of emerging evidence. Tables are available on <u>COVID-19 transmission</u>, SARS-CoV-2 <u>vaccines</u>, and <u>variants</u> of concern, <u>post-acute sequelae of COVID-19 (PASC)</u>, <u>surgery and COVID-19</u>, <u>rapid testing</u> and <u>risk mitigation strategies</u>.
