## COVID-19 Critical Intelligence Unit

### **Daily evidence digest**

7 April 2022

The daily evidence digest collates recently released reports and evidence – provision of these links does not imply endorsement nor recommendation.

# Fourth dose of Comirnaty (Pfizer) against Omicron, the course of Long COVID, dynamics and scale of the Omicron epidemic in England

#### Peer reviewed journals featured:

- · Observational studies on:
  - o Protection by a fourth dose of Comirnaty (Pfizer) against Omicron in Israel here
  - o The course of post-COVID-19 symptoms in the ComPaRe long COVID cohort <a href="here">here</a>
  - o An olfactory self-test to screen for COVID-19 here
  - Relationship between anti-SARS-CoV-2 IgG antibodies and vitamin D and inflammatory markers in COVID-19 patients <u>here</u>
- A modelling study on the impact of screening and vaccination against COVID-19 and school closure <u>here</u> and associated commentary <u>here</u>
- Commentary on:
  - o Gastrointestinal post-acute COVID-19 syndrome (Long COVID) here
  - o An equitable roadmap for ending the COVID-19 pandemic here

#### Letters and correspondence discussed:

- Studying severe long COVID to understand post-infectious disorders beyond COVID-19 here
- China's zero-COVID policy here
- Estimated health outcomes and costs of using monoclonal antibodies to prevent or mitigate SARS-CoV-2 infections here

#### Pre-peer review articles featured:

- Dynamics and scale of the Omicron epidemic in England here
- Correlation between clinical variables and serum neutralising antibody titres after mRNA vaccination in US adults <a href="here">here</a>
- Initial Ct values predicting SARS-CoV-2 duration negativity for test-to-release and return-to-work schedules here
- The trustworthiness and impact of trial preprints for COVID-19 decision-making here
- Glasses and risk of COVID-19 transmission here
- Real-world evidence of the neutralising monoclonal antibody sotrovimab for preventing hospitalisation and mortality in COVID-19 outpatients during the Delta wave <a href="here">here</a>

#### **Guidance and reports**

- The World Health Organization published updates of its COVID-19 epidemiological report here
- The National COVID-19 Clinical Evidence Taskforce released updated recommendations and clinical flowcharts <u>here</u>

#### News and blogs

Could computer models be the key to better COVID-19 vaccines? <a href="here">here</a>
