10 May 2022

The daily evidence digest collates recently released reports and evidence – provision of these links does not imply endorsement nor recommendation.

# Psychotropic medications and risk of COVID-19, tackling endoscopy backlogs due to COVID, UK updates on variants and long COVID

### Peer reviewed journals featured:

- Observational studies on:
  - The use of psychotropic medications and the risk of COVID-19 infection in long-term mental health inpatients <u>here</u> and associated commentary <u>here</u>
  - Adequacy of serial self-performed rapid antigen detection testing for longitudinal mass screening in Montreal workplaces <u>here</u>
  - The online ecology of COVID-19 vaccination hesitancy <u>here</u>
  - Gut microbiota composition associated with COVID-19 vaccine immunogenicity and adverse events <u>here</u>
- Modelling studies on:
  - The risk-benefit of emergency vaccine use here
  - o Distribution speed and varying efficacy levels of COVID-19 vaccines under variants here
- Commentary on:
  - o Understanding long COVID in the healthcare workforce in the UK here
  - The COVID-19 vaccine patent here

#### Letters and correspondence discussed:

- Comparison between non-pulmonary and pulmonary immune responses in a HIV decedent who succumbed to COVID-19 <u>here</u>
- SARS-CoV-2 antibody response in people with inflammatory bowel disease decrease over time here

#### Pre-peer review articles featured:

- Managing COVID-19 in an Australian designated isolation facility here
- Innovations to improve timeliness of investigations and address the backlog in endoscopy for patients with potential symptoms of upper and lower Gastrointestinal (GI) cancers? <u>here</u>

## Guidance and reports

- The UK Health Security Agency published an update on SARS-CoV-2 variants of concern and variants under investigation <u>here</u>
- The Office for National Statistics released an update on self-reported long COVID in the UK here

# News and blogs

- Are COVID-19 surges becoming more predictable? New Omicron variants offer a hint here
- Kids get limited COVID-19 protection from world's most popular vaccines here
- The US passes one million deaths as mask mandates return here
- True global death toll from pandemic is almost 15 million here
