

# CIAP news

## More Resources Now Available on CIAP!

This month, a number of resources have been added to CIAP, including [Pediatric Care Online \(PCO\)](#), the [Australian and New Zealand Journal of Psychiatry](#), and [Emcare](#) nursing and allied health database. The Therapeutic Guidelines app (eTG Complete) is now also available to all NSW Health staff through CIAP.

This month's newsletter will highlight each of these resources so that you can learn how you can get even more from CIAP!

## Pediatric Care Online (PCO)

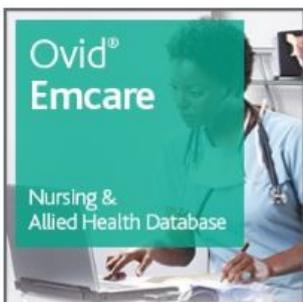

[Pediatric Care Online \(PCO\)](#) is a paediatric decision support tool from the American Academy of Pediatrics (AAP). Designed for health professionals at the point of care, PCO provides access to:

- evidence-based clinical information
- a repository of supporting reference material
- patient information
- over 100 Key Practice Points
- advice on 'red flag' signs and symptoms
- a downloadable app.

Find PCO in the 'Quick Links' and 'Diseases and Conditions' panels on CIAP as well as the Paediatric Specialty Guide. Alternatively, you can download the PCO app from CIAP's [Mobile Help Page](#).

## Emcare on Ovid

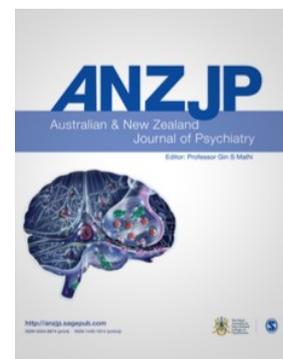

[Ovid Emcare](#) is replacing AMED and Nursing@Ovid on CIAP. Emcare offers peer-reviewed literature in nursing and allied health and uses the discovery technology of the Ovid® platform.

Created for nursing and allied health professionals and students, Emcare provides a way to search, discover, and manage information relevant to your practice. Find Emcare in the databases panel on the CIAP homepage and within some of the specialty guides.

# Australian & New Zealand Journal of Psychiatry

The [Australian & New Zealand Journal of Psychiatry \(ANZJP\)](#) is the leading psychiatry journal of the Asia-Pacific region. ANZJP is a monthly journal publishing original articles which describe research or report opinions of interest to psychiatrists.

Australian & New Zealand Journal of Psychiatry is the official journal of The Royal Australian and New Zealand College of Psychiatrists. Find this and other journals from CIAP's full journal list or the Discovery Search.

## CIAP Launches New eLearning Modules

CIAP's eLearning modules were initially developed in 2010 to assist CIAP users to better understand the theory and principles of evidence-based practice, and to showcase the fundamentals of citation database search techniques.

All links have now been updated, and the content revamped and re-structured to provide a more user friendly experience. Each of the four completed modules can also now be recorded as 3 hours of CPD points - PDF certificates included.

Check out CIAP's eLearning modules from the [Knowledge Centre](#).

## Therapeutic Guidelines App Now Available

The Therapeutic Guidelines app (eTG Complete) is now available for download through CIAP. Comprising of over 2,500 clinical topics and drug recommendations, eTG complete provides busy clinicians with instant access to evidence-based recommendations on-the-go. Find the full download instructions in CIAP's [Mobile Help](#) page.

### We'd love to hear from you...

[Tell us](#) what we should discuss in the upcoming CIAP newsletters.
